I am especially interested in feedback on the opening and operation of the PDF files

This is a new type of genealogy presentation using PDF files!!

These pages represent a new approach at presenting genealogy. Mine is the first fully electronic Genealogy Book!!

Be sure and look at the ancestor chart on the family.html page

There are two full length genealogy books on this site and 25 or so supporting documents in PDF format. They are not printable and not editable and the text cannot be copied or duplicated using cut and paste. They can be downloaded to someone's computer and read later using adobe acrobat reader.

Some documents on the site are printable because I want them to be!! My own biography is printable

ATTENTION ALL WHO RECEIVED AND STORED POSTS FROM LAST YEAR FROM MYSELF CONCERNING DESCENDENTS OF REUBEN PIERCE AND WIFE LEVICIA

WE HAVE DETERMINE THERE WAS MUCH INCORRECT INFORMATION AND ASSUMPTIONS IN THOSE POSTS.

The information on these web pages is correct as far as we can determine.

Other genealogists have determined that several of the children attributed to Rueben Pierce are related to another family, namely that of James H Pierce NH the following pages has info regarding children of Reuben Pierce.

<http://members.xoom.com/ldpierce/Ruebenandchildren.html>

Information on possible descendents of James H Pierce NH is presented at

<http://members.xoom.com/ldpierce/jameshandchildren.html>

Your group's feedback and opinions would be greatly appreciated!!!
